ABOUT ME

I'm a software developer with over 10 years of experience building high-traffic digital products. I focus on turning business requirements into solid technical solutions, caring about code quality, metrics, and continuous improvement.

EXPERIENCE

TIGO CHILE | MILLICOM

Santiago, Providencia

Consultant

Apr 2026 – Current

- Contribute to the migration of a Node-RED-based system to Typebot and WhatsApp Business Platform (WSP), implementing APIs and translating existing business logic into the new platform.
- Develop and test conversational flows across Typebot and WSP, ensuring functionality and consistency throughout the migration process.
- Monitor key performance metrics and compare pre- and post-migration results to identify potential impacts and ensure continuity of the service.

TELEFÓNICA

Santiago, Providencia

Tech Lead

Jun 2022 – Apr 2026

- Led the migration of application-integrated sections from AWS to Microsoft Azure, ensuring a smooth transition of existing services and functionality.
- Led application integrations and post-migration bug resolution following a major technology migration, forming and coordinating a development team of three mid-level developers.
- Developed the E-commerce store within the application using React, JavaScript, PHP, and MySQL, contributing to more than 50% of the digital channel's revenue between mid-2023 and early 2026.
- Integrated solutions to track the customer journey within the application using JavaScript. Additionally, supported the team in creating Google Analytics tags and generating automated daily reports for stakeholders.
- Supported the team in implementing the Telefónica Mística Design System in the new React Native application using Storybook.

TELEFÓNICA

Santiago, Providencia

Front-End Developer / CRO Sub-lead

Nov 2018 – Jun 2022

- Planned and implemented A/B tests using Google Optimize and AB Tasty, increasing the conversion rate of products on the company website from 3% to 7% for home internet and from 4% to 8% for mobile internet.
- Developed and launched the company's blog, increasing SEO traffic and contributing to an approximately 10% increase in the conversion rate of its main services.

AGENCIA RADICAL

Santiago, Providencia

Front-End Developer

Nov 2016 – Nov 2018

- Designed and developed real estate websites using HTML, JavaScript, PHP, and WordPress.
- Integrated Google Analytics 3 and analyzed website data to generate reports and actionable insights for stakeholders.

EDUCATION

Pontificia Universidad Católica De Chile

Santiago, Chile

Diploma in User Experience Design and Measurement in Digital Environments

2019

Duoc UC

Cerrillos, Chile

Graphic Designer – Editorial & Web Design

2010 – 2014
